LifeTec Medical Introduces Only Certified UK Calibration Service for Clinical Dynamics Range of NIBP & SpO₂ Test Equipment

LifeTec Medical is the sole & exclusive distributor for Clinical Dynamics manufactured biomedical test equipment in the UK & Ireland.

LifeTec announced today that it has launched the UK & Irelands only certified Clinical Dynamics calibration service centre.

This facility relates to all test devices manufactured by Clinical Dynamics, including:

Clinical Dynamics Branded Devices:

- SmartArm™ NIBP Test Device
- AccuPulse™ NIBP Test Device
- AccuPulse™ Handheld NIBP Test Device Range
- SmartSat™ SpO₂ Test Device

Rigel Branded Devices:

- Rigel 311C NIBP Simulator
- Rigel 322 SpO₂ Simulator

Calibration is required annually for these devices, and certified calibration services can now be gained through LifeTec Medical.

LifeTec Medical's Managing Director, Stuart Hildage, said;

"Clinical Dynamics biomedical test equipment is endorsed by leading OEM monitoring manufacturers, including Masimo, Nellcor, Philips, Datascope & Medtronic. Our new UK based calibration service offers customers the ability to have their test equipment calibrated and certified by the only authorized centre in the UK & Ireland"

About LifeTec Medical:

LifeTec Medical markets a high quality range of compatible patient monitoring accessories, active patient warming products, biomedical test equipment and products used in the field of resuscitation.
